## Do you need solar control in your home?

Horiso External Venetian Blinds are one of the most versatile and effective methods of solar control in residential homes. They make your home **climate ready** by maximising natural daylight while reducing glare, thermal gain and energy consumption.

They have been engineered to withstand harsh weather conditions and are available in a range of sizes, finishes and colours to suit your home's aesthetics.

Visit [www.horiso.com](http://www.horiso.com) for more information.
